Objective

Self-driven computer science engineering student, seeking internship or fellowship in artificial intelligence. I can handle complex projects with minimal supervision and am very effective on a team.

Since I was very young, I have had a passion for artificial intelligence, where computer science and cognitive science meet. I would love to work the AI field.

Education

Rensselaer Polytechnic Institute (Troy, New York)

Freshman

August 2016 – Present

B.S. Computer Science & Cognitive Science (Dual Major)

Saint John's School (San Juan, Puerto Rico)
